

25 Solid Shed Shelving Unit

Instruction Manual
3, 4 or 5 Shelves

25 Instruction Manual

Parts List

2 x side panels	12 × 60mm screws
1 x rear panel	6 × 40mm screws
3,4 or 5 shelves	30mm panels for shelves

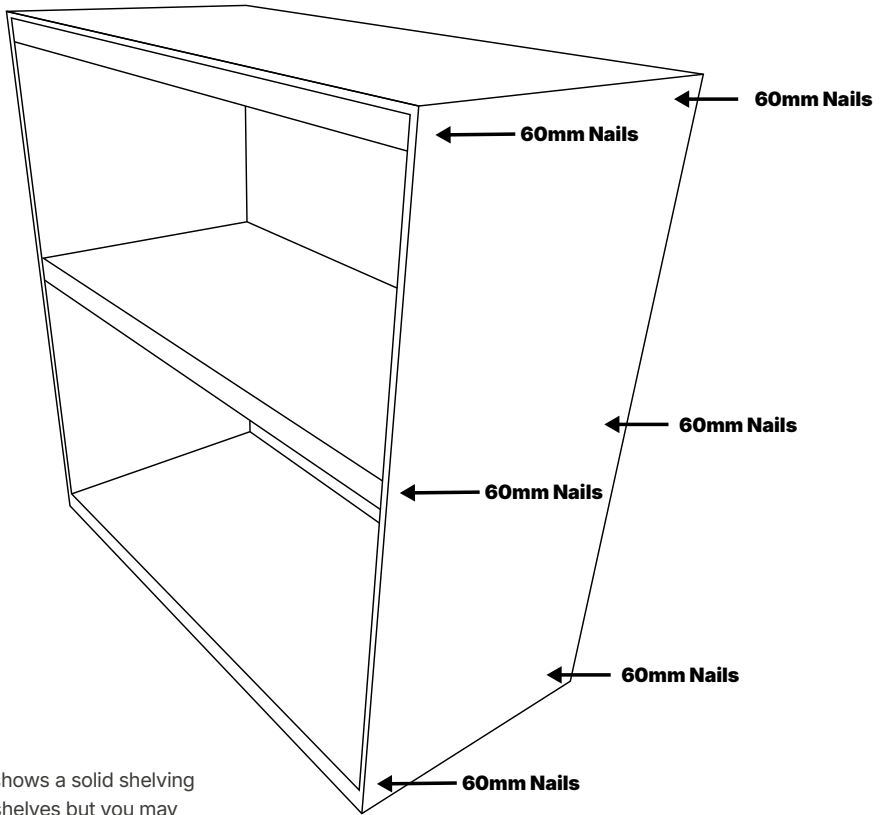

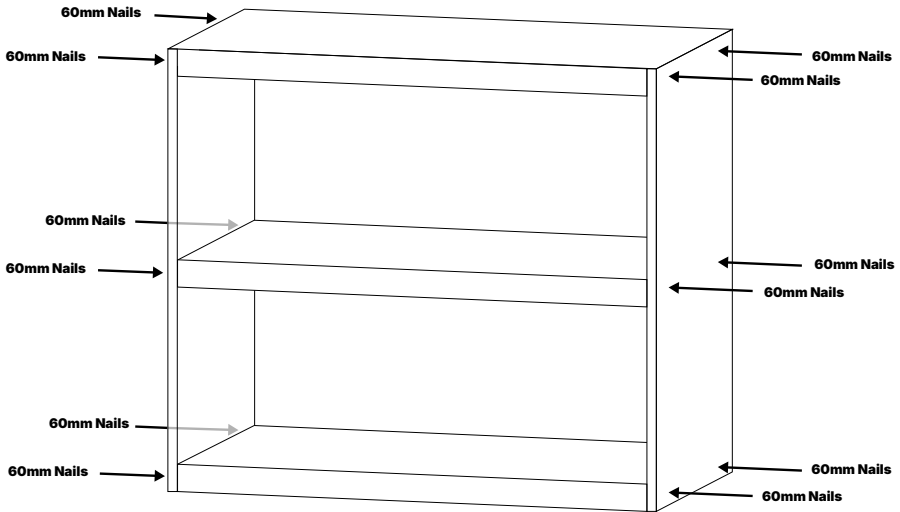

Illustration shows a solid shelving unit with 3 shelves but you may have 4 or 5 shelves

Step 1.

Start by fixing two 60mms as shown into bottom shelf and one side panel. Then repeat for the second side.

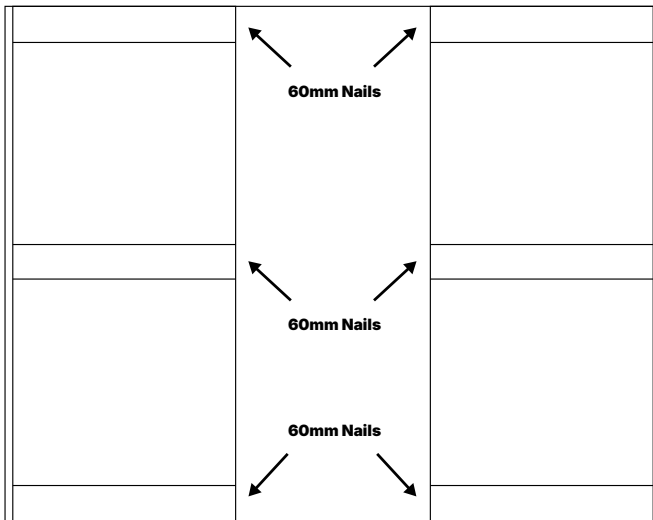

Step 2.

Position the top shelf flush with the top of the side panel and secure with 60mm as shown.

Step 3.

Position the remaining shelves at any heights to suit and secure using the method shown.

Step 4.

Ensure that the shelves are level. Then fix the rear panel with six 40mm screws as shown.
